CAREER EXPERTISE:

STEEL MELT SHOP-- SAFETY, QUALITY, PLANNING, PRODUCTION, COST, MANPOWER CONTROL, PROJECTS & INVENTORY CONTROL wrt STORES & SPARES, BULK RAW MATERIAL & FINISHED PRODUCTS

QUALIFICATION:

- M-Tech in Process Metallurgy from Karnataka Regional Engineering college-Surathkal, Karnataka-state - 1998.
- M-Tech in mineral processing from Gulbarga university KDR nagar (Nandihalli), sandur, Karnataka-state - 1996.
- B Sc (PCM), SES College, Sandur, Gulbarga university, Karnataka-state – 1993.

EMPLOYMENT BRIEF

Presently working with SUNFLAG IRON AND STEEL Co since 4th Sept 2023 as HEAD-SMS.

1. Responsible for overall activities of the Steel Melt Shop.

SMS consists of the following.

1. Two nos Induction Furnace 30 MT each.
2. One no Electric Arc Furnace 55 MT.
3. Two nos ladle refining furnace.
4. Two nos Vacuum Degassing units with single ejector system.
5. AOD for Stainless Steel.
6. Two nos Continuous caster.
7. Ingot casting.

Responsibilities:

1. All alloys steel and high alloy steels for Super alloy plant.
2. Achieved highest record production of 44500+ MT per month.
3. Leading the team of operations and maintenance.
4. Safety & Housekeeping, Quality, Cost, Productivity and all other associated responsibilities.
5. Control on stores, spares and consumables.
6. Inventory control on bulk raw materials and finished products.
7. Process and customers development.
8. Quality improvement plan with innovative ideas in coordination with R&D.
9. Assisting in contracts wrt man, machine management.
10. Having the basic knowledge of Iron making and Rolling mills.
11. Taking care of ISO and TPM activities.

Worked with SLR METALLIKS LTD as VICE PRESIDENT SMS since Apr-2021 to Aug-2023.

Operational Achievements:

- Responsible for overall activities of SMS operation, mechanical & electrical, safety of man & machine.
- Quality, Cost & Productivity.
- Grades development.
- Environment green belt development.
- Refractory life enhancement.
- Interpersonal relation development.
- Achieving the organizational goals.

Worked at Hospet Steels Ltd, as General Manager-HEAD SMS, from Oct-2017 to Mar-2021.

Operational Achievements.

- Grades developments.
- Productivity enhancement (From 34 heats to 37.3 heats per day, highest achieved is 42 heats.)
- Modification in oxygen blowing system to achieve an average of 40 heats per day.
- Furnace refractory life increasing more than 2000 heats.
- Ladle refractory life improvement.
- Cost control through proper process stabilization and optimized charge mix wrt to need of the hour.
- Reduction in Argon and Aluminum consumption with modification.
- Quality improvement as per the customer's requirements.
- Looking after the safety activities, TPM (KK pillar chairman), and all other internal and external audits.

Worked at M/s SLR METALLIKS Limited, as Sr. General Manager-HEAD SMS, from Aug-2016 to Oct-2017

Operational Achievements.

- Commissioning and stabilization of Steel melt shop.
- Production of only alloy steel.
- EOF –LRF –VD- CCM
- Maximum no of heats 24.
- Quality steel.
- Controlled cost.

Plant Profile: Plant capacity 0.3 MT

Worked at BMM ISPAT LTD as a General Manager from Aug-2015 to Aug-2016.

Operational Achievements:

- Commissioning and stabilization of Steel melt shop.
- Production of both alloy and mild steel.
- EAF operation with 100% DRI.
- Maximum no of heats 17.
- Quality steel.
- Controlled cost.

Plant Profile: Plant capacity 1.2 MT

Technology:

- SEIMENS VAI(EAF/LRF/VD,-120 MT Capacity)
- SMS CONCAST ZURICH (5 STRAND CASTER)
- Electric Arc Furnace-LRF-VD-5 Std 9 Mtr radius caster
- One LRF and VD.

Worked in HOSPET STEELS LTD Steelas a General Manager from May-2010 to July-2015.**Operational Achievements :**

- Productivity increase from 0.3 to 0.6 M MT.
- 42 heats in a day ,16 heats in a shift & >50K MT in a Month with single EOF.
- Stabilization of quality steel through consistent process control.
- Up gradation of Safety & house keeping.
- Cost control through process improvement.
- Reduction in Refractory cost by increasing Furnace life , Ladle life & reduction in gunning consumption.
- Longer casting sequences .
- Ultra low “P” level <0.010.
- Catch carbon practice depending on grades with slag free tapping .
- LRF 1st temperature > 1540 deg c.
- Developed indiginious lime powder and coke injection system in EOF.

Plant profile:

An Integrated steel plant having

- Sinter plant .
- Blast furnace.
- Praxair.
- Energy optimizing furnace.
- Ladle Refining furnace.
- Vaccum degassing.
- Billet caster.
- Bloom caster.
- Rolling mill.
- Captive power plant.

Product range :

- | | |
|----------------------|---|
| • CH Quality | : 10B21,15B21,19MnB4M,15B41. |
| • Forging Quality | : 16MnCr5,20MnCr5, ,40Cr4C,SAE8620,EN-19 & etc. |
| • Ball bearing steel | : SAE 52100, EN - 31. |
| • Free cutting steel | : ENIA. |
| • Semi free cutting | : EN8M, SAE 1141. |
| • High carbon steel | : 56/60,61/65,81/85,78/82. |
| • Spring steel | : SuP-7,SuP-9,SuP-11,65Si7. |
| • Seamless Tubes | : MSL IA, MSL VIII A. |

Worked in JSW Steel-Salem unit as a Manager from Feb-2005 to April-2010**Key Deliverables:**

- a) Achievements in Steel Melt Shop: -

- » Below SMS Projects execution from layout finalization, technical suitability for making alloy steels to erection & stabilization of the plant from 0.2million tons per annum to 1 million tons per annum in 3 Years.
- » Up gradation of EOf#1 from 35 Tons/Heat to 45 Tons/heat.
- » 65 T Energy optimizing furnace of Minitec-Brazil technology.
- » Ladle refining furnace 65Ton- 3 Nos of Danieli make.
- » Vacuum de-gassing units 65 Ton- 2 Nos of Danieli Make.
- » 3 Strand Bloom caster of Danieli make.
- » Modification of 9/16, 2 strand caster to 3 strand convex caster (Concast make).
- » Worked as a SMS shift in charge responsible for productivity, cost, quality
- » Was Incharge of Both EOF#1 & EOF#2 along with Pit Side.

Worked in Hospet Steels as Executive from Feb-1998 to Jan-2005

Hospet steels ltd, is a joint venture by two legends MUKAND and KALYANI with a production capacity of 3 lacs Ton per annum in the Greenfield of Hospet, Karnataka

Plant profile:

- 2 Mini blast furnaces of 250 M³ Each, 45 T EOF, 2 X 45 T LRF (ABB), 1 45 T VD (ALD – Germany), 3 Strand bloom caster (POMINI), 3 Strand billet caster (POMINI), 1 Bar Mill.
- Accredited with ISO 9001 -2000 & ISO 14000.
- Recommended for ISO TS16949 (First steel plant in India).

Responsibility:

- Worked as a “EXECUTIVE SMS-EOF “at HOSPET STEELS LTD.
- Erection, commissioning 35/40 T Energy optimizing furnace of Tatakorf technology.
- Shift incharge of EOF.

Achievements:

Erection and commissioning of Below mentioned Projects execution from erection stage to commissioning & stabilization for 0.3 million ton per annum.

- » 45 T Energy optimizing furnace of Tatakorf technology..
- » Stabilization of SMS with in a short time to produce 3.5 LacTons of steel by 2005

PERSONAL DOSSIER

Address : G K RamanaGouda, S/o C G Kenchanagouda
Rajarajeshwari, #161
Nanda Gokul Heritage.
Hospet, Vijayanagar,
Karnataka.

Marital Status : Married
Date of Birth : 01-06-1972
Passport Number : L3500277

PLACE: HOSPET
